About me

Passionate and results-driven MERN Stack Developer with hands-on experience building scalable web applications. Currently employed at Tech Track Software House, where I deliver innovative and efficient solutions. Strong team player with a focus on writing clean, maintainable code.

Experience

Web Developer

Developed and delivered professional full-stack websites for clients as a freelancer using React, Node.js, Express, and MongoDB. Implemented authentication, real-time features, and API integrations to enhance performance and user experience.

Project

📌 Hong Kong Company Formation
Create realtime website for my client with complete setup of front and backend

📌 Merchandising services
Create merchandising website for same client with complete setup .

📌 Blog Website
Responsive blog with user authentication, post creation, and comment system

📌 Small Trello Dashboard
Task management UI with drag-and-drop using React and Zustand.

📌 RealTime ChatApp
Built with Socket.io and Node.js for real-time messaging using MongoDB.

📌 Food Restaurant Website
Frontend static website built using HTML, CSS, and JavaScript.
